## Simple operation with pump

The rugged GasAlertMax XT reliably monitors for up to four gas hazards and combines straightforward one-button field operation with an integrated sampling pump. Tamper-proof, user-adjustable options enable the instrument to be customized to suit your application. Confined space entry and remote sampling have never been so easy with new, intelligent SmartSample pump technology. Minimize pump blockages and improve remote sampling result accuracy. Powered by a rechargeable battery pack that provides runtime for an entire 13 hour shift, the compact GasAlertMax XT comes with standard event logging and datalogging. The GasAlertMax XT is fully compatible with the MicroDock II automated test and calibration system.
