

FMC-10

Single Point Gas Alarm

The FMC-10 has been designed to operate in the full range of environments from commercial premises through to heavy industrial applications which may require hazardous area sensing.

A fixed single point alarm unit that meets the requirements for economic and reliable monitoring of gas levels in a wide range of environments from commercial premises through to heavy industrial applications which may require hazardous area sensing. Typical monitor locations are - public buildings, boiler plant rooms, swimming pools, water treatment works, H&V control systems, manufacturing and process plants.

Key Features

- Flammable, Oxygen or Toxic Gases
- Wall or panel mount
- Two alarm stages + relays
- Internal or remote sensor
- Compact size
- Low power consumption
- 4-20mA analogue output
- Sealed to IP65 rating
- Extensive fault detection circuitry
- Delay to alarm options

Applications

- Petrochemical industry
- Chemical industry
- Storage facilities
- Process plants
- LNP facilities
- Waste water treatment

Specifications*

Combustible Gas - LEL, % Vol, ppm Toxic Gas - ppm, % Vol Oxygen - % vol - Depletion or Enrichment Any 4~20mA input signal Indicators Digital Display 31/2 Digit Power - Green L.E.D. Switch on delay power indicator flashing - 45 secs Alarms Lo/Hi - Red L.E.Ds Fault - Amber L.E.D. System Test - Alarm L.E.D.s flashing Alarm relay inhibit - Fault L.E.D. on Audible Alarm Low, High and Fault Alarms Power Supply 230/115v AC 50/60 Hz or 24vDC The two voltages may be utilised simultaneously - stand 4 watts - full alarm Power Consumption Outputs Duy, High and fault alarm relays -SPCO normally de-energised - energised option Lo gas alarm relay SPCO normally energised - de-energised option latched or unlatched Fault relay SPCO normally de-energised - energised optic All contacts rated 5A - 230v AC 4-20mA/1-5v Output 24vDC @ 100mA max - auxiliary equipment (non inductive) Alarm Settings Digital setting (fully adjustable between zero and full sca Delay to alarm options - 10/30 seconds, 10 minutes

Alarm Settings Digital setting (fully adjustable between zero and full sca
Sensor Inputs Bridge type 3 wire detector mv (Catalytic)
4-20mA (electrochemical / infrared)
Sensor Cable 3 core 1.5mm2 screened 1.5km
Miscellaneous Operating temperature -10 to +50°C
Storage temperature -10 to 65°C
Alarm relay inhibit during calibration
Sounder Inhibit
System function test switch
Dimensions L 200mm H 120mm D 58mm
Weight 0.8 kg
Protection IP65
Field Terminals - screw type 2.5mm
Cable entry - top, bottom, sides, rear
*Specifications are subject to change
