

McMurdo PLB Range

The McMurdo range of PLBs are designed to be carried by individuals as a last resort safeguard against any life threatening incidents that may occur anywhere in the world. Whether alone or within a group, on holiday, at work, carrying out your sport or hobby, if you ever find yourself in a remote area, land or sea, without any other form of communication, a Fastfind PLB comes into its own. Once activated it transmits a unique identification signal via the international search and rescue satellite system operated by COSPAS SARSAT on 406 MHz. The signal is then quickly passed to regional search and rescue authorities who can rapidly get to the scene.

The PLBs both use a discreet antenna deployment system with a simple three-stage manual operation technique to prevent any risk of accidental or false activation. In its stored state, the antenna is completely hidden from view and fully protected against rough handling. Once deployed, the antenna automatically springs into the optimum position ready for use.

Fastfind PLB's use the same advanced technology as McMurdo EPRIBs, miniaturised into a compact and rugged, palm sized unit. They are designed to withstand the harshest of environments while still being extremely easy to operate and small enough to carry with you at all times.

Fast Find 220 PLB

The FAST FIND 220 PLB uses advanced technology packed into a simple, lightweight, palm sized unit. Using the dedicated 406MHz frequency, Fast Find 220 transmits your unique ID and precise GPS location to the global network of search and rescue satellites within minutes. Rescuers are alerted to your situation, and Fast Find 220 sends them regular updates on your position. Finally, emergency services can home in on your beacon's 121.5MHz transmission to find you.

- Mini size, MIGHTY 406MHz emergency signal with GPS
- Minimum of 24 hours continuous operation
- Simple design, easy to use
- 6 year battery life
- No subscription or call charges
- Floats with buoyancy pouch
- Waterproof to 10m
- SOS morse LED
- Safe-stow antenna
- Self test both the battery and GPS

Flotation pouch, lanyard and universal pouch included

Fastfind MaxG PLB

The Fastfind MaxG brings added endurance to safety with 48 hour operational battery life at temperatures as low as -20°C.

The battery packs have a five year storage life and are easily user replaceable.

The Fastfind MaxG's integral state-of-the-art multi-channel GPS receiver gives search and rescue services your precise co-ordinates with regular updates. A green LED will start to flash, showing that a GPS position fix has been acquired. The MaxG PLB is waterproof to 10m and floats on water. It is supplied complete with lanyard and carry pouch.

- Internationally approved
- Compact and lightweight
- Waterproof to 10 metres
- Buoyant
- Transmits on 406 and 121.5 MHz
- Global emergency alerting via COSPAS-SARSAT satellites
- Integral state-of-the-art multi-channel GPS
- Minimum of 48 hours continuous operation
- Simple three stage activation
- Carry pouch and lanyard included
- 60 comprehensive diagnostic and self-tests during battery life
- 5 year battery life
- User replaceable battery
- 5 year warranty

Fast Find 220 PLB Accessories

A range of accessories are available to personalise the usage and carriage of the Fast Find 220 PLB, these include:

- Belt Pouch (black)
- Neck Lanyard (430mm – 470mm)
- Wrist Lanyard (160mm – 190mm)

The Fastfind PLB Dive Canister

This waterproof aluminium housing enables a diver to carry the Fastfind PLB to depths of 150m (500ft), with the assurance that once they have returned to the surface they have the security of having access to the Fastfind PLB if there are any threats to their safety.

- Dimensions – 162mm x 93.5mm
- Weight – 900g

Accessories

Grab Bag

Designed for marine and land use, this waterproof and buoyant Grab Bag is perfect for holding emergency equipment.

- High visibility
- Buoyant
- Splashproof
- Dimensions – 35cm x 15cm x 24cm
