

Hand Protection

[In Safe Hands – MSA Protective Gloves]

The hand is one of the most sophisticated human instruments to perform different working tasks. The hands are exposed to mechanical strains but also to fire, heat, cold, cuts and chemical risks. Therefore it is important to choose proper types of protective gloves in work where there is a risk of injury.

MSA offers a wide range of hand protection to match all kind of demands.

Working Gloves

Our leather and textile gloves meet the highest requirements on protection, comfort and quality.

MSA's glove program includes the following gloves which all have their own special quality: BALDER, ATLE, TOR and YMER. Our fine mechanical gloves in goat and pig grain leather, IDUN, FINN, FREJA and BRAGE have been highly appreciated by our customers. MSA WELD is a unique welding glove, with its soft quality

that gives maximum sensitivity. MSA ARCTIC is a new excellent winter glove made in a superior quality, to be used outdoors, as well as in cold storage rooms.

Why leather?

Leather has – just as your own skin – marvellous qualities. It adjusts itself to the temperature of the environment and moisture structure, by absorbing or transporting the moisture. Leather is also elastic and has good flexibility.

Quality of the leather

MSA's established process of tanning, preparing, cutting and seaming the right choice of leather guarantees the highest quality one can get.

Grain leather is the outer layer of the hide. Grain is soft, durable and stands up to moisture very well. Heat resistance approx. 80 °C.

Split leather is the inner layer of the hide. The split leather surface is porous and absorbs moisture easier than the grain leather. The split leather also provides a good grip due to its rough surface. Heat resistance approx. 100 °C without any special treatment.

BALDER

BALDER

Excellent all-round work glove for outdoor and indoor work. Soft and smooth specially tanned pig grain leather in durable quality. Full leather index finger. Half lined. Packaging 12/120 pair.

T5204200 BALDER Men's size

T5204201 BALDER Ladies size

ATLE

ATLE

Basic work glove for normal out- and indoor work. Soft and smooth selected pig grain leather in strong quality. Full leather index finger. Half lined. Packaging 12/120 pair.

10019402 ATLE Men's size

10028124 ATLE Ladies size

TOR

TOR

Durable glove for many rough and general purpose applications. Soft and smooth cow split leather in high quality. Full leather index finger. Half lined. Packaging 12/120 pair.

T5292200 TOR Men's size

T5292201 TOR Ladies size

YMER

YMER

Excellent work glove even for the toughest outdoor work. Soft and smooth cow grain leather in high quality. Full leather index finger. Half lined. Packaging 12/120 pair.

T5205200 YMER Men's size

WELD

Perfect fitness in selected durable, soft and smooth goat grain leather. Full leather glove, re-inforced back of the hand for improved safety at work. Long leather cuff for spark protection makes a superior all-round glove, excellent for Argon welding. Sewn with Kevlar, thread for long durability. Packaging 12/120 pair.
