In case hazardous substances are present at a work place it has to be taken into account that all of a sudden they occur in concentrations that cause severe health impairment or even death. Then the filter escape units Parat 1 and Parat 2 have a single but vital task to perform: They have to ensure that user is provided with protection along his escape route into a safe, breathable atmosphere. Therefore they are tailored to compactness, robust design and safe handling.

1. Half mask with 2-point harness - Quick donning even for untrained people
2. Mouth piece assembly - For the least leakage possible

3. ABEK Filter - Protection against a wide range of toxic gases and vapors
4. Robust, handy case - even for rough handling usage
5. Transparent cover with clip - easy to check, easy to wear
