### International Safety Products

International Safety Products Ltd. is the World's largest manufacturer of inflatable, marine lifejackets, and a leading manufacturer/supplier of survival equipment.

We use the very latest in textile technology and pursue an innovative design philosophy, ensuring production of safety equipment capable of performing to the highest standard in the most extreme of conditions.

# Challenger Worksafe Commercial Lifejackets

## Purpose

Throughout the EU and many other countries around the world, the laws relating to the Health and Safety of employees are becoming increasingly stringent, especially those laws affecting marine related activities and lifejackets.

The Worksafe provides a versatile lifejacket for the professional working on or near water, in industries such as;

- Water utility companies
- Ship builders
- Harbour and marine construction companies
- Port management companies
- Dredging companies
- Workboat operators
- Bridge construction and maintenance companies

## Challenger Worksafe

Easy to don and comfortable to wear, this slim, unobtrusive lifejacket can be fitted with a fire proof cover enabling it to be worn while welding.

## Challenger Worksafe Pro

The Worksafe Pro has been ergonomically designed with a slimmer fit, zipped cover with storm flap. It has a mesh back to improve comfort and provide breathability as well as an integral pocket which allows you to stow away the crotch strap when not in use. A zipped pocket, neo neck for added comfort and a radio attachment strap are fitted as standard.

## Wave Barrier Technology

The patented interlocking lobe design of the bladder used in the Challenger Worksafe and Worksafe Pro lifejackets self-right the wearer in under five seconds, even if wearer is unconscious, providing an effective *Wave Barrier* which prevents water from being channelled into the wearers airways.
