

Safety Eyewear

Honeywell

Honeywell Instinct™
**Superior protection and personal
adjustability with style!**

Honeywell Instinct™, the newest safety eyewear from Honeywell Safety Products that offers unparalleled protection, comfort and style all in one! Honeywell Instinct™ is new to our “Adjust for me” category of safety eyewear.

HIGH-PERFORMANCE PROTECTION

- This **Dual 7-base wrap-around lens** provides excellent side protection coverage and uncompromised peripheral vision, protection and performance.
- Available in a variety of high performance lens coatings such as **Supra-Dura®**, **Dura-streme®** and **Fog-Ban Plus** coatings.
- A wide variety of lens tint options to meet a broad range of working situations and hazards.

SUPERIOR COMFORT AND FIT

- **Lens gradient** made possible with the side arm ratcheting temples for a customized comfort and fit for each individual.
- **Soft flexible “finger-like” nose** adjusts and conforms to almost any nasal profile and helps reduce slipping and sliding.
- Soft elastomer browguard **diffuses and deflects impact**.
- **Soft temple tips** cushion the delicate areas above and behind the ears.
- **Sleek, high-gloss frame** provides high-end styling.
- Weighs less than one ounce for comfortable, all-day wear.
- Meets EN 166.

1 Soft elastomer browguard **diffuses and deflects impact**

2 Soft temple tips **cushion** the delicate areas above and behind the ears

3 Custom designed temples offer sleek styling

High performance lens coating options:

Supra-Dura®, advanced anti-scratch coating is perfect for high-particulate environments where lens scratching is a severe problem. This coating lasts 5x longer than competitive anti-scratch coatings on the market.

Fog Ban Plus coating delivers long-lasting protection from fogging, even in intensely hot and humid work environments. This coating is permanently bonded to the lens for exceptional performance and maintains its anti fog properties for twice as long as most competitive models.

Dura-Streme® dual coating technology combines the benefits of our proprietary anti-fog and hard coat technologies onto one lens. While the advanced anti-fog properties of the fog-ban coating keep the interior of the lens clear from fogging, the rugged properties of our hard coat protect the exterior of the lens from scuffs and scratches, adding up to 3X longer lens life. *Comparative lens life test performed using a Bayer abrasion test method, and may vary between environment and applications.*

Dual 7-base-wrap-around lens provides uncompromised peripheral vision and protection

Adjustable lens inclination for a more secure and comfortable fit

Soft flexible “finger-like” nose adjusts and conforms to almost any nasal profile and helps reduce slipping and sliding in hot and humid working environments

Honeywell Instinct™ is available in a wide variety of lens tints to meet a broad range of working conditions and situations.
