TRACK DATAVIEW

Large display

The  DataView LCD with back light facility provides the operator with all relevant DataSonde information in real time. The LED display provides the operator steering information allowing to maintain an accurate and safe drill operation.

- Remote Steering
- Alarm warnings for high DataSonde temperature and low battery level.
- Pitch Angle (inclination) in % of grade, or degrees.
- Downhole frequency change to overcome localised interference
- Real time transmission of Roll Angle and Pitch Angle from DataSonde to receiver, to DataView.
- Continuous on screen DataSonde temperature
- Built-in Power socket for an external 12V DC supply
